Eco-Hiking Europe

2016 - 2018

Eco-Hiking Europe

The Eco-Hiking Europe project (2016-1-CZ01-KA219-023903) was completely financed by EU grant Erasmus+. The principal aim of the project was to show the European nature and its wide range of ecosystems to as many students as possible. The core of the project were 5 international workshops (one in each hosting country/partner). The workshops were designed as hiking expeditions in ecologically or environmentally important areas. Each workshop took 5 working days, most of which were spent in the outdoors.
